SOLARIZE
UPPER VALLEY

Kearsarge Solarize (Andover/New London/Wilmot)

Our three towns were selected to participate in Solarize Upper Valley this fall, a program designed to help residents and small businesses go solar! We're teaming up with Vital Communities, a local nonprofit that has been running Solarize programs across the Upper Valley. Our Solarize program will run for 15 weeks between mid-October and the end of January.

Learn more at our LAUNCH EVENT
Saturday, October 18th at 10am at Colby Sawyer College's Clements Hall
 (part of the Ivey Science Center)

HOW SOLARIZE WORKS:

Community Outreach. Led by a joint volunteer team from our three towns, with support from Vital Communities.

A Vetted Installer. Our volunteer team will competitively select a partner solar installer so homeowners can have confidence they're getting good value and competitive pricing.

Simple and Easy. Our partner installer, volunteer team, events, and online resources will help you understand where to begin, what to expect, and the costs/benefits of going solar.

Go Solar Together and Save. As more residents in our three towns sign up to go solar, the savings are greater for everyone.

This spring, five towns participated in Solarize Upper Valley and helped **120 homes** go solar.

One third of those new solar homeowners say they never thought solar was a realistic possibility before Solarize.

Solar might make more sense than you think.
